

Surveyors' Day – 21st March

Message from

Surveyor General
W. Sudath L.C. Perera

With immense pleasure, I extend my warmest greetings on the auspicious occasion of the inauguration of the Surveyors' Day Celebration, set to take place on March 21st in the city of Colombo. As esteemed Survey Professionals, we stand privileged to commemorate this significant day in Sri Lanka, aligning with the International Surveyors' Day.

The advancement of technology has revolutionized the modern land surveying practices, with GNSS technology playing a pivotal role in expediting surveying processes. Moreover, the integration of cutting-edge technologies such as UAV surveys for feature identification offers unparalleled accessibility and this technological prowess empowers land surveyors to deliver survey plans with unparalleled efficiency, meeting and surpassing the expectations of our esteemed user community.

Furthermore, the dynamic landscape of geomatics technology presents both challenges and opportunities for survey professionals.

The ceremonial events planned for this occasion will provide a platform for sharing the latest technological advancements among survey professionals. We are committed to ensure that, this event is a resounding success, creating lasting memories for all participants.

Together, let us embrace the spirit of collaboration and celebrate the remarkable steps made in the field of surveying.

I wish all the best for all surveyors, surveying professionals and the staff of the Survey Department who contributed for all the events.
